# Evans Distribution Systems Partners with NTT to Deliver Unique E-commerce Solutions

## Company Overview

Founded in 1929, Evans Distribution Systems provides companies a single source solution for warehousing and distribution, transportation, contract packaging, quality inspection, fulfillment, staffing and other logistics-related services.

Evans Distribution Systems has a history of providing integrated logistics solutions in Michigan and throughout the Midwest, dating back to 1929. In 1932, Evans was recognized by local media for its innovation in simplifying the distribution process. The company's customers and services have changed over the years, but its dedication to developing innovative supply chain management solutions remains the same.

Evans Distribution Systems selected NTT based on its comprehensive managed services expertise and scalable, flexible cloud solutions, and for their reputation of superior service. By working together, Evans Distribution Systems and NTT are laying the groundwork for e-commerce solutions including automated delivery, on-demand order fulfillment and international trade requirements.

The new solution provides Evans Distribution Systems with greater cost efficiencies and exceptional audit and compliance capabilities; and has increased performance while freeing up internal teams to focus on core business initiatives.

## Company Information

- Mid-market Logistics Company
- Corporate headquarters in Melvindale, MI
- Operates in the Logistics, Transportation, and Manufacturing Industries

## Challenges

- Performance Issues in a virtual environment
- Lack of specialized IT expertise in managing virtualized environments

- Trusted Expertise - gained NTT experts focused on supporting its critical IT environment

## NTT Services

- Private Enterprise Cloud
- Disaster Recovery Services

**“We chose NTT because the NTT team treats us with the same high level of detail and attention that we provide to our clients.**

We could have chosen any number of managed services providers, but none came even close to matching the superior level of service and expertise that NTT delivers. The outcomes have been above our expectations and our business has already profited from such a smooth transition.”

**John Evans**, President & CEO, Evans Distribution Systems
