

Managed Cloud Services for Oracle® PeopleSoft

End-to-End Oracle PeopleSoft Hosting

From human resource management (HRMS) to supply chain (SCM) and customer relationship (CRM) management, Oracle PeopleSoft solutions are designed to address the most complex business requirements. But the day-to-day application and infrastructure maintenance can stretch the limits of IT staff. With Secure-24 PeopleSoft Hosting and Application Management, businesses can quickly enjoy the benefits of hosting applications in the cloud.

Scalable, Secure, and Cost-effective PeopleSoft Hosting

Secure-24's PeopleSoft Hosting and Management Services make it easy for businesses to host PeopleSoft applications in the cloud. Flexible deployment options allow businesses to choose the deployment model that's best for their business and their budget. Secure-24 can manage PeopleSoft applications onsite or at one of our state-of-the-art data centers.

Secure-24 maintains your environment at the release or patch level with expert support for future migrations or upgrades. From security to disaster recovery, we have technical teams ready to support your PeopleSoft environment. PeopleSoft Hosting provided by Secure-24, will help save organizations time and money in sourcing, configuring, and managing, freeing teams to focus on business growth.

Why Secure-24 for PeopleSoft Application Hosting and Management?

Zero Downtime Tolerance

Our primary focus is to provide mission-critical application hosting with zero tolerance for downtime.

Single Platform

Secure-24 owns its data centers and controls the entire solution stack (Data centers, infrastructure, etc.).

Certification

SSAE Type II SOC 1 Certification (formerly SAS70 Type II) ensures compliance for operations and data centers.

Industry-leading Service Level Agreements

Secure-24 deliver comprehensive and industry-leading SLAs with penalties for non-performance.

Highest Security

Secure-24 uses the most advanced monitoring technologies and experts to safeguard business data 24x7x365. Multiple layers of security are provided, including dual-biometric access and aligned ITIL processes.

Performance. Innovation. Trust. Comprehensive Managed Cloud Services.
