

Secure-24 Managed Cloud Services

Driving Accelerated Value from Your Mission Critical Systems

Cloud computing has changed the way businesses deliver value. It is estimated by the year 2025, all enterprise data will be stored in the Cloud. To meet the demands of business, IT departments need the expertise to modernize IT and execute strategic initiatives, while keeping pace with advancing technologies. Secure-24 delivers flexible, end-to-end Managed Cloud Services for application, database and hardware technologies. We host, monitor, measure and advise companies around the world to help ensure continual operational improvement and superior security and compliance 24x7x365. With Secure-24, you can choose your platform: Private, Public, Hybrid, Multi-cloud or Enterprise Cloud.

Managed Cloud Services

Secure-24 Managed Cloud Services can manage Oracle®, SAP®, QAD® and Microsoft® applications and technologies including:

- Oracle Hyperion
 - Oracle PeopleSoft
 - Oracle JD Edwards
 - Oracle E-Business Suite
 - SAP
 - SAP HANA
 - SAP S/4HANA
 - QAD
 - Microsoft Exchange
 - Microsoft Sharepoint
 - Microsoft Azure
 - Amazon AWS
 - Google Cloud
 - Custom Applications
-

Modern IT Management: A Holistic Approach

So many clouds: Public, Private, Hybrid, Multi-cloud or Enterprise. Regardless of the Cloud platform, Secure-24 specializes in successful business outcomes. By making every client's cloud requirements work seamlessly together, managing all systems in concert and treating each client like our only client, we stand alone in the industry as an independent Managed Cloud Services provider.

Through a holistic approach and a comprehensive view of Managed Cloud Services, our engineers manage not only storage, networks, and operating systems, but also the tools and applications that run on top of the top of the infrastructure.

Flexible Deployment Options

Secure-24 has a broad portfolio of managed cloud services options and delivers a combination of services tailored to meet individual enterprise business and technology requirements.

Managed Application Services. Secure-24 provides a comprehensive, yet flexible approach to managing the core systems functionality for applications allowing companies to focus on customer success. We build robust application management systems to keep mission-critical applications and underlying systems up-to-date, secure and performing optimally.

Managed Infrastructure. Companies can leverage the economics of Secure-24's investment into robust cloud infrastructure, built upon best-of-breed systems delivering security, flexibility and high performance. We help to avoid the risks of vendor lock-in and allow clients to run diverse workloads on the most effective cloud infrastructure. Clients can scale environments up and down throughout the year, while remaining compliant with the strictest control requirements.

Key Benefits

- **Reduced and Predictable IT Costs**
OPEX model so clients can effectively plan expenditures.
 - **Enhanced Agility and Optimized Performance**
Rapid provisioning and scalability in test and production environments.
 - **Reduced Business Risk**

Multi-Cloud Platforms. Whether mission-critical applications and workloads are atop Microsoft Azure, AWS, Oracle or Google Cloud, Secure-24 has the expertise to deploy and manage systems on Public Cloud IaaS in addition to a Secure-24 hosted facility or on-premise. This breadth of experience uniquely positions our teams to manage and support cloud environments (Private, Public, Hybrid or Multi-cloud) that best meets workload requirements.

Managed Security and Compliance: Operational Peace Of Mind

We are committed to maintaining the highest level of industry compliance and government mandates. As information security regulations are evolving more rapidly than ever, leverage our experienced teams to design the solution specific to your business needs. Whether companies require compliant managed services or a fully managed IT Governance, Risk Management and Compliance, our experts can help to exceed expectations. We build robust application management systems to keep mission-critical applications and underlying systems up-to-date, secure and performing optimally.

Why Secure-24 Managed Cloud Services?

For more than 18 years, Secure-24 has been delivering flexible managed services for critical systems for businesses of every size. Partnering with an experienced Managed Services provider like Secure-24 can help save you time and money and reduce risk. We deliver:

- Scalable and tailored solutions that grow with your business with the flexibility to change what systems are managed by Secure-24.
- Flexible managed services solutions in our Private, Public, Enterprise, Multi-cloud or Hybrid Cloud.
- Deep expertise backed by guaranteed application-level SLAs.
- Predictable costs with an OPEX model to help businesses plan expenditures.
- Accelerated problem resolution 24x7x365 via industry-leading support, with 98% client satisfaction ratings.
- Long-term service partnership dedicated to your business success.

At Secure-24, we focus on delivering superior service, with successful outcomes, so you can focus on what you do best: your business.

Performance. Innovation. Trust. Comprehensive Managed Cloud Services.
