

Managed Microsoft® Office 365 Services

Reliable, secure, enterprise-class communication and collaboration tools for business.

Microsoft Office 365 is a subscription plan that include access to Office applications, and other business productivity services such as Microsoft Exchange, SharePoint and Teams over the Internet. Running, implementing and promoting user adoption of Office 365 can require significant time and resources — particularly for organizations without expert product knowledge. Partners can leverage Secure-24’s Microsoft Office 365 resources to deploy, manage and scale endless amounts of Office productivity for their enterprise.

Key Features

- On-boarding and Migration**
 Full planning and execution including prerequisites, solution design, user access setup, and hybrid situation configurations.
- Adoption Strategy**
 Our teams help develop, implement and encourage adoption of new Office 365 features, enterprise-wide.
- Comprehensive Support**
 24x7x365 technical support via our help desk and comprehensive knowledgebase. We liaise with Microsoft on your behalf.

Capturing Today’s Value and Protecting The Future

Clients find many benefits from our managed Office 365 services, including faster Office 365 user adoption, access to our professional teams for innovative ideas to solve business process challenges using Microsoft Office. Our Office 365 expertise enables teams to focus on the business value drivers surrounding their collaboration strategy, while our team provides and sustains a comprehensive and fully responsive Office 365 operating environment.

Migration Tools for All Types of Data

Engage Secure-24 teams to migrate, support and streamline your Office 365 processes. We can help plan migrations to Office 365 from Microsoft Exchange, Lotus Notes, Documentum, Google, and other legacy systems. Take what you need, leave what you don’t. We’ll move it all with minimal business disruption and no data loss.

Key Benefits

- **Strategic Partnership.** Trusted partnership between functional teams and Secure-24's hands-on product administrators.
- **Enhanced User Adoption.** Improved user adoption for increased return on Office 365 investment. Assisted user onboarding to reduce knowledge gaps.
- **Flexibility.** Leverage Secure-24's product and industry insights, and gain the flexibility to quickly adapt to change.

End-to-End Support Services. Limitless Scalability.

Secure-24 ensures smooth, predictable performance of your Office 365 environment with proactive monitoring and monthly reporting. Secure-24 also delivers comprehensive support for Office 365 server stacks including Exchange Hybrid, SharePoint, ADFS, DirSync, E-discovery, SMTP and compliance management. Build, host and scale in Microsoft's Azure cutting-edge cloud.
