Security, Compliance, and Control

Secure-24 designed world-class data centers with the highest security standards and compliance. We considered the full range of security features in our design: construction standards such as concrete and steel-reinforced walls, multi-layered biometric access controls, redundancy for every component, and strict process and procedures. Your applications and data are protected over a highly secure connection that incorporates the most stringent security standards.

Regulatory Compliance

ISO/IEC 27001:2013, ISO/IEC 27017:2015 and 27018:2014 Certifications

Secure-24 has achieved the International Standards for Organizations (ISO) 27001:2013 Certification for Information Security Management System (ISMS) and Operations and the ISO/IEC 27017:2015, International Standards Certification for Cloud Services and 27018:2014 Certification for Protection of Personally Identifiable Information in the Cloud.

SOC 2 and SOC 3 Evaluations

Secure-24 has successfully completed the Service Organization Control (SOC) 2 and 3 evaluations/ SOC 2 and SOC 3 compliance confirms that we have controls in place to ensure the security, availability, processing integrity and confidentiality of managed cloud services.

Performance. Innovation. Trust. Comprehensive Managed Cloud Services.
