Optimize Your JD Edwards Investments

Secure-24 provides a complete JD Edwards application hosting service that combines deep application expertise and world-class Managed Cloud Services to deliver a fully managed, optimized, and scalable solution for JD Edwards EnterpriseOne and World implementations, migrations and upgrades of any size.

When you partner with Secure-24 for application hosting and management, you gain in-depth knowledge and expertise that you can trust. Our JD Edwards professionals fully manage IT environments with customized and flexible solutions.

Oracle JD Edwards Hosting in the Secure-24 Cloud

Secure-24 Managed Cloud Services enable enterprises to leverage their JD Edwards investments to extend into the cloud with greater value, choice and confidence. With over 17 years of experience implementing, hosting, upgrading, and managing JD Edwards environments, Secure-24 is a cloud hosting leader.

We deliver end-to-end managed cloud services for JD Edwards EnterpriseOne and World applications, middleware, database, and hardware technologies. We help clients maximize their IT investments in the cloud with world-class security and best practice regulatory compliance.

Flexible Deployment Options

The choice is yours. You can choose the best deployment model for your business. Secure-24 can manage your Oracle applications on premise or in one of our state-of-the-art data centers. Our JD Edwards application teams and next generation infrastructure provide the optimal performance necessary to stay agile in today's rapidly changing business environment.

Security, Compliance, and Control

Secure-24 designed world-class data centers with the highest security standards and compliance. We considered the full range of security features in our design: construction standards such as concrete and steel-reinforced walls, multi-layered biometric access controls, redundancy for every component, and strict process and procedures.

Regardless of the network solution designed for your implementation, your applications and data are protected over a highly secure connection that incorporates the most stringent security standards.

Why Secure-24?

- Oracle Gold Partner
 - Managed Application Services for high availability and proactive monitoring
 - SOC 1 and Type 2 Certified
 - Premier Services to design, migrate, patch, or upgrade application environments
